These assessments provide a common language that people can use to better understand themselves and adapt their behaviors with others - within a work team, a sales relationship, a leadership position, or other relationships.

The profiles help you and your team:

- Increase your self-knowledge: how you respond to conflict, what motivates you, what causes you stress and how you solve problems
- Improve working relationships by recognizing the communication needs of team members
- Facilitate better teamwork and minimize team conflict
- Develop stronger sales skills by identifying and responding to customer styles
- Manage more effectively by understanding the dispositions and priorities of employees and team members
- Become more self-knowledgeable, well-rounded and effective leaders
